

NETWORKING CABLES

BustQue has been providing cable solutions for the enterprise market for more than 19 years with our solid and stranded copper cables being of the highest quality and performance.

We can supply component compliant structured/LAN and patch cord solutions for Cat5e , Cat 6 , Cat 6a , Cat 7 and beyond in all configurations: UUTP/UFTP/SFTP.

With approved and certified products for jacket materials in both PVC and LSZH (Low Smoke Zero Halogen), TE can assist in supplying the right network cable for you.

Our QC teams ensure that every article is thoroughly tested on dedicated Fluke test equipment before shipping out and allowing for quick and simple deployment for all our customers.

BustQue has Delta (EC verified) and UL/cUL certifications for our network cable product range and is trusted supply partner of many enterprise cabling distributor worldwide.
