Cable management

The Nova Rack has numerous well-situated features integrated in it's design to assist with convenient cable management.

The Nova Rack is supplied standard with 2 x 300mm Cable Trays, and 2 x rear Ring-Run Panels to assist with cable organization.

The Rack's Top & Bottom has multiple cable entry points with removable cover plates, to allow different cabling options.

There are 4 x Brush Panel entries situated in the Rack's Top & Bottom.

The Rack's Side Doors, have a horizontal split, and are easily removed, for quick access.
